

Project Documentation

This section is for documentation associated to the project to some degree.

The [governance](#) explains how we make decisions and who decides what in the project.

If a problem isn't already a [known bug](#) or something mentioned in the [TODO](#), you can [report the bug](#).

If you never contributed to curl or worked in this project before, learn how you can [get started](#).

Learn about the [dependencies](#) libcurl can use, which [features](#) it has or how to [install](#) it.

Meta info: Project [history](#), [web site info](#), [how to donate](#) and [Code of conduct](#).
